Location of Equipment:

(The below image is a representation of how the mast will look)

The radio equipment will be fitted to a pole that will extend approximately 2.5m-3m above the pitch of the building.

The pole will be fixed to the side of the building using 12 " T&K Brackets

The radio equipment will be connected to a 600x600x300mm ABS enclosure fitted to the side of the building approximately 2m from the floor, this will contain the routing equipment

Power will be obtained In the main Town Council building via an unswitched spur.

Wildanet will also require the installation of a 1U NTE ,for the gigabit fibre connection, in the network cabinet In the main office of the Town Council.
