Subject: Bus Stop Improvements - Liskeard

Dear Steve,

You will be aware of the Council's One Public Transport System for Cornwall Project to improve and enhance public transport for users. As part of the project, we are upgrading some bus stops and introducing digital real time passenger information (RTPI) screens at stops to provide live travel details to customers. Attached for your information are plans depicting the proposed works in the Liskeard area. In summary:

- Plan 001 – overview of bus stops and locations
- Plan 003 – Train Station bus stop – installation of a new digital RTPI display
- Plan 004 - Council Office bus stops x 2 – installation of new cantilever style stainless steel bus shelters and digital RTPI displays
- Plan 005 – Liskeard Dental Centre bus stops x 2 installation of new digital RTPI displays
- Plan 006 – Charter Way/Quimperle Way bus stop – installation of a new cantilever style stainless steel bus shelter and digital RTPI display
- Plan 007 – Charter Way (near roundabout) bus stop – upgrade/replace existing RTPI display with new digital display
- Plan 008 – Morrisons bus stop – remove faulty RTPI display and replace with new digital RTPI display
- Plan 009 – Pets at Home bus stop – installation of a new digital RTPI display

In addition, we also propose to upgrade/replace the existing RTPI displays at both The Parade bus stops and the display in the wooden shelter along Clemo Road, adjacent Oak Tree Surgery. Please see plan 1 for reference.

It would be greatly appreciated if you could let me have any comments by Friday 25th January 2019. Should you require any further information, or if you would like to discuss the plans further, please let me know.

Best wishes

Lee Quinney
