### **473/18 To receive an update about progress of items from the last meeting of the planning committee on Monday 18 February 2019**

Wainhomes (Land east of Oak Tree Surgery) have commenced building ahead of discharging the outstanding conditions attached to their application but have now submitted several documents to rectify this. While the planning officer would not be consulting the town council formally on these, he would consider any comments submitted.

In addition, a pre-application has been submitted for some re-planning of the site due to engineering constraints discovered during the works already taking place.

The committee noted that more difficulties had been observed with the operation of the new access junction for the site on to Charter Way, and would continue to monitor this situation, with a view to requesting a highways review if believed necessary. The Clemo Road junction which serves the hospital and others, may also benefit from a filter lane.

Councillor Craker advised the committee he had supported the town council's objection to a street trading licence on the Liskeard Business Park, as he believed it would impact the viability and vitality of the town centre, did not comply with relevant planning policies, and was inconsistent with other Cornwall Council policy and objectives.

**477/18 Applications to be Considered**

**PA19/00097 – Chandler Homes, Liskeard Silver Band, Barn Street**

Change of use and refurbishment of former Silver Band Hall to provide seven 1-bedroom apartments and associated storage and circulation space

As part of the discussion the committee considered the following points:

- A building heading for dereliction was being brought back into viable use
- The building was not listed, although of Henry Rice design from 1854, and would be largely retained with a small alteration to the front façade
- The Design and Access Statement incorrectly stated it had been vacant for more than 20 year
- s, when in fact it was believed to still have been in use until 2013
- The property had been vacant for the last 5 years, while former users the Liskeard Silver Band had continued to thrive using alternative premises and therefore the loss of community space was not a cause for concern
- The density of the design, particularly the first floor which appeared cramped
- Arrangements for safe evacuation in the event of a fire – the design would need to comply with building regulations for fire safety in dwelling houses
- Lack of outdoor amenity space for drying washing etc
- Parking – while it was accepted this did not need to be provided due to the town centre location, it may add to the problems of on street parking in the already recognised problem area of nearby Gas Lane and Varley Lane.
- Lack of natural light in the rear ground floor flat
- A reallocation of the internal stores was needed to ensure those for flats 1 and 2 were most easily accessible to somebody in a wheel chair
- Clarification of arrangements for refuse and recycling collections – would 7 lots of dustbins/recycling bags all be put out on the front pavement?

Councillor Cassidy proposed, Councillor Ambler seconded and the Committee

**RESOLVED** that the Council **DEFER** the application, pending further clarification, specifically relating to the design density, fire safety requirements and refuse and recycling arrangements.
