

**5. GRANT APPLICATION – Sterts Arts and Environmental Centre – External and Theatrical Lighting - £2,000. – a) application form b) accounts.**

Applicant	Project	Amount of Grant	Budget 2022/2023 £10,000
Sterts Centre	External and Theatrical Lighting	£2,000	£2,000
		If approved amount remaining	£8,000

**RECOMMENDATION:** To consider the grant application from the Sterts Arts and Environmental Centre.

**10. CCTV – (MIN419/21) – To receive and consider the costs of the Rapid Deployable Cameras.**

Background – The last meeting of the committee considered the location and relocation of the two Rapid Deployable Cameras (RDCs). Committee asked for costs which are included below.

Facilities Manager Update “The latest information we have from Samantha Moore, Business Development Manager at Cornwall Fire, Rescue and Community Safety Service is that the cost of relocating the Rapid Deployable CCTV cameras is £352.00 per camera. The proposal is to move one camera to a location at the top of Castle Park and the other camera from Rapson’s Field to Sungirt Car Park. The daily administration fee is £25.00 per camera. Samantha is offering both cameras for £25.00 for a trial period of 3-months. Both cameras were due to be removed at the beginning of April for a software upgrade and can be fitted at the new locations at the end of April/early May.

So, in summary the cost is £704.00 + £2,300.00 (92-days x £25.00) = £3,004.00.

As far as I am aware there have been no requests for ‘Authority to View’ any of the CCTV footage from either of these cameras which points to the fact that the police haven’t received any reports of anti-social behaviour, crime etc.”

**RECOMMENDATION:** To support the requests from the Police and partners to relocate the Rapid Deployable Cameras.
