| 11 | Dear Rachel I would like to see the Town Council provide recycling bins for glass and drinks cans which i regularly find in local parks, by the road etc. Some councils provide bins for general recycling next to those for everything else. I think the sale of glass and metal should offset the cost of installing and maintaining bins, but perhaps not now, with the economy in freefall. I have found a website for the Wrap charity which offers advice about recycling to local councils. I would be grateful if you would investigate and let me know what you think at podnil45@gmail.com.
