He also volunteers at the Stuart House garden.</p> <p>Stuart House info - Malcolm first came to us at Stuart House in September 2014, on a trial period, (and has been unable to find his way home since). Since he joined us he has developed our “hidden garden” and the two front beds either side of the main entrance. It has been a pleasure to watch the changing of the guard, and see how each season brings its own personality.
