

## **Liskeard Active Travel**

[Sustrans](#) has been commissioned by Liskeard Town Council to provide a comprehensive Local Walking and Cycling Infrastructure Plan for the town. This will include detailing potential walking and cycling routes and network options to encourage local people and visitors access to the town and its surroundings. The exercise will include analysis of the current situation, consultation with stakeholders and detailed recommendations and plans which can be used as the basis of funding bids.

To be able to engage more fully and inclusively we have developed a digital Community Mapping Tool for the public and stakeholders. Participants are then able to comment on the local area, identifying barriers to walking and cycling. The GDPR-compliant mapping software allows users to leave as many comments as they like, whilst identifying unique participants and other demographic data, for the purposes of evidencing engagement.

If you would like to participate, please click on the link below.

[Liskeard cycling and walking network | Sustrans Community Mapping](#)

We want to ask you to identify on the map:

- Main physical barriers to walking, cycling and wheeling in the area e.g. major roads and junctions, railways, etc.
- Potential cycle routes to connect the key origins and destinations within the area
- Potential walking zones where there is a high pedestrian activity e.g. high streets, schools, busy pedestrian crossings, etc.

### **How to use the tool:**

**Step 1:** Locate and click on the map where you would like to add a comment and then click "Add point"

**Step 2:** Log in with Google or Facebook

**Step 3:** Choose between 'Barrier', Potential Cycle Route' or Potential walking zone' and then add a comment/description if required. Click save

**Step 4:** Answer the user's questions. Click save

That's it! You can add as many 'points' as required. Your responses are anonymous.

You can also see other people's comments and click on "👍 Like this comment" if you like/support a comment. There is an example comment at Liskeard Hillfort Primary School already posted to get an idea of the type of comments/responses.

The closing date for comments and contributions is 3 October 2021.

Many thanks!
