HIGHWAY IMPROVEMENT PROJECTS

November 2026 - April 2027

Liskeard

As part of the ongoing investment in transport infrastructure, highway improvement works will be carried out at key locations in Liskeard to improve pedestrian facilities. The scheme has been developed in response to feedback from the local community, particularly regarding pedestrian crossing facilities and accessibility.

Construction will take place in three main phases: **23 November to 18 December 2026, 4 January to 26 February 2027 and 30 March to 17 April 2027.** The works will be delivered in phases to keep disruption to a minimum.

The majority of the work will be carried out under temporary multi-way traffic lights, with traffic manually controlled during peak periods. Work will take place Monday to Friday, with some additional weekend working required to keep the project on schedule.

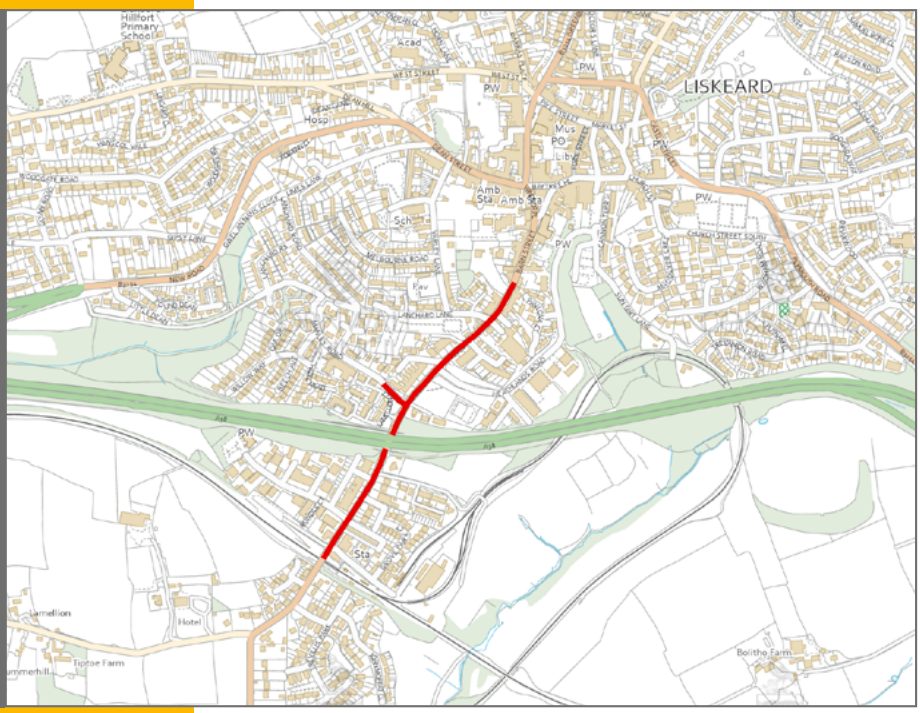

We appreciate that roadworks can be inconvenient and thank residents and businesses for their patience while these improvements are completed.

What work is taking place?

The scheme includes the installation of dropped kerbs and tactile paving, junction narrowing works, and the construction of a controlled pedestrian crossing to improve safety and accessibility for pedestrians.

Once complete the improvements will make it safer and easier to walk between the railway station, the town centre and Lux Cross. The scheme has been developed from proposals put forward by Wheel Walk Cycle Trust and local stakeholders.

To minimise disruption and maintain safety, the works will be carried out in a series of carefully planned phases.

Parking restrictions

Temporary clearway restrictions will be introduced at different stages of the works. This means vehicles must not stop or park in the affected areas during the restricted hours. The dates and times will be clearly signposted, and affected residents and businesses will be notified in advance.

We recognise the importance of parking to residents and businesses. These restrictions are necessary to provide sufficient space for traffic management to operate safely, allow our teams to work efficiently and reduce the risk of delays or repeat visits.

Key

- 24-hour multi-way traffic lights and temporary clearway parking restrictions
- 24-hour road closure
- Additional works (daytime working and overnight road closure with clearway parking restrictions)

Traffic management

Multi-way traffic lights and parking restrictions between **23 November and 18 December**, and again from **4 Jan to 26 February.** Individual sections are expected to be affected for between 6 and 20 days.

Manley Road will be closed to through traffic 24 hours a day from **25 January to 5 February.**

Additional work will take place from **30 March to 17 April**.

Access arrangements

Signed diversion routes will be in place when the road closure is in place. Access for residents and businesses within the working area will continue to be available wherever it is safe and practical to do so, and we will communicate directly with anyone who may be affected by the work.

Suitable barriers and safety measures will also be installed to guide pedestrians safely around the site.

Please allow extra time for your journeys and for everyone's safety follow the signage and any instructions given by our teams while the works are taking place.

If vehicles are left within the restricted areas, we will make reasonable efforts to contact the owners before arranging removal. Where necessary, an approved contractor will safely relocate obstructing vehicles.

Please be aware that vehicles parked within a clearway during restricted hours may be towed at the owner's expense. If your vehicle has been relocated, please contact 0300 1234 222 to arrange collection.

Getting in touch

For enquiries regarding the improvement work, please email: SurfacingCivilsPatching@cormacltd.co.uk

For up-to-date information about roadworks, road closures and diversions, affecting the road network, please visit: one.network

You can report an issue on a road, highway, or footway here: www.cornwall.gov.uk/reportroad

If there is an issue which is a threat to public safety, please telephone 0300 1234 222 (24-hour service).giving details of the location.
