

Guildhall Window

This week Liskeard Community Fire Station rallied to the call when one of the historic Liskeard Guildhall windows needed replacing. The position and height made it a very tricky piece of maintenance but thankfully the local fire crew brought ladders and crew so the window could be replaced as part of their practise exercise with no cost to the Liskeard Council. You can't beat Liskeard for it's fantastic local community. A big thank you to all those who helped!
