Summary Housing Trajectory Table: Liskeard: (Urban)

[→ Show Filter](#)

The geography of interest can be changed using the 'Show Filter' button on the top right and amending dropdown selections accordingly. Note that the only valid targets are those described in the Local Plan (Community Network Areas split between town and rural elements). As such any other selection will only produce results in the first table featuring completions and commitments. However a complete CNA would be a valid selection, and associated town and rural elements would be summed and considered together.
