

Making space for nature in Cornish towns

Volunteering Opportunities

Volunteers in communities help bring people together to look after the local environment. As a volunteer you could either be part of a group or as an individual doing tasks such as:

- Setting up a 'Friends of Group' to work with other local people
- Organising community activities
- Gardening tasks like weeding the flower beds or meadow patches
- Arranging litter picks

Making Space for Nature volunteering priorities in Liskeard are:

- Regular litter picking at Lanchard Woods
- Establishing a community-run 'Friends of Castle Park Group'
- Activities for young people in these sites

If you are interested in volunteering, please email info@cornacld.co.uk or spacefornature@cornwall.gov.uk explaining how you'd like to get involved.

An Officer will respond to explain how to register and provide support. By registering, we can ensure the approvals are in place and that you are covered by the public liability insurance.

You could be out volunteering within a few weeks of getting in contact! Please do get in touch. Thank you.
