## **533 / 22      PUBLIC PARTICIPATION**

Residents from the Trevethan Meadows development welcomed traffic calming measures on St Cleer Road but expressed concern that these may have a negative impact on Granite Way and Carlton Way, the road to be opened through the estate, because they are being brought forward ahead of details of the s38 legal agreement relating to works to the estate roads. In the interests of safety they believed the estate roads should be for residential traffic only and not as a route for traffic heading towards Callington and Charter Way. They wished to ensure there would be no signage promoting this route, and preferably signage to deter it – stating that it is not a through route or suitable for large vehicles. When plans for the estate roads are brought forward they should include traffic calming measures of the same standard as those proposed on St Cleer Road. Any link made between Clover Drive and Tregay Lane was in danger of becoming a rat run. 20mph speed limits would be welcomed as part of the Cornwall Council wide 20mph programme.

## **534 / 22      ST CLEER ROAD, LISKEARD - TRAFFIC CALMING AND PROHIBITION OF MOTOR VEHICLES - To consider a response to the public consultation which ends on 30 March 2023**

The proposed traffic calming measures on St Cleer Road were positive, however clarity was needed on some issues; the pedestrian crossing points did not appear to be accessible via a pavement, and information was needed on the relocation of the bus stop.

129/22

When S38 plans are submitted, the Town Council request traffic calming measures on Granite Way and Carlton Way, of a similar standard as those proposed on St Cleer Road, noting residents concerns about the increased gradient and residential nature of the development. Signage should indicate any Clover Drive to Tregay Lane link was access only, to discourage the creation of a rat run.

In addition to responding to the consultation the Council would write to the developer Persimmon Homes, to raise these points.
