

TRIANGLE CANCER SUPPORT CENTRE

The Triangle Drop in Centre is open every Thursday in Liskeard Community Centre and anyone affected by cancer, patients, carers, relatives and friends are very welcome to call in.

Triangle is a charitable organisation and run by volunteers, but is staffed by professionals who can provide information and reassurance on a range of subjects including treatment and ways of coping with a cancer diagnosis.

Jane Pascoe said “The Triangle centre within Liskeard hospital provides a well needed service to our dear and loved residents of Liskeard and district. They are able to make this difficult journey more comfortable by offering Complementary Therapies and reassuring patients, carers and loved ones as they receive treatment”

“Whilst visiting on Thursday so many of the patients mentioned that the facility to receive treatment in Liskeard was welcomed as the travel to Derriford was distressing and tiring.

Liskeard is indebted to the dedicated volunteers that raise money to maintain this wonderful facility.”
